Mrs. Crouther, of O'Fallon, Ill., Murders

Her Neighbor in a Cowardly and

Brutal Way.

The Fiendish Female Found With Her

Throat Cut and Dies Confessing

the Bloody Deed.

Yellow Fever Suddenly Appears in New

York City—A Victim Picked

up in the Street.

A Horrible Tragedy.

St. Louis, Aug. 29.—A horrible tragedy occurred at O'Fallon, Ill., late last night, the chief points of which are that about 4 o'clock yesterday afternoon Mrs. Crouther was found in a smoke house on the premises of her son-in-law, John H. Lehman, bathed in blood, with her throat cut from ear to ear and a bloody razor lying by her side. A surgeon was sent for immediately, and her throat sewed up and she was made as comfortable as possible. There seemed to be no motive for the dreadful deed, but two hours later it was discovered to be the sequence of a crime still more horrible and ghastly. Mrs. Crouther, a highly respected widow lady and a sister of Hon. J. B. Vance, was found lying murdered in the garden adjoining her residence a half mile east of town with her head and face dreadfully beaten and clothed with gore. A terrible wound appeared in her breast and a file was found near by; also, a blood-stained piece of iron kettle and a club, both of which seemed to have been used with terrible effect in the tragedy. As it was known that some jealousy or bad feeling existed on the part of Mrs. Crouther toward Mrs. Crouther it was suspected there was more than a mere coincidence between the murder and the attempted suicide and on closely questioning Mrs. Crouther she confessed to have killed Mrs. Crouther. It seems Mrs. Crouther's little daughter had done chores for Mrs. Crouther and a dispute arose yesterday afternoon between them about the payment of money for the child's services. Bad blood already existed still more angry feelings arose and Mrs. Crouther in her passion seized the weapons at hand and stopped not till her victim lay dead at her feet. She then turned away and in the reaction of her feelings attempted her own life. The account so far is very indefinite and the facts will not be known before to-morrow when the inquest will be held.

Three sealed but unaddressed letters, said to have been written by Mrs. Crouther, are now in the hands of the coroner, and they will probably be read at the inquest and it is thought will throw some light upon the affair and reveal the cause of the terrible deed.

Further information from O'Fallon, Ill., is to the effect that Mrs. Crouther died between 9 and 10 o'clock last night, after repeatedly stating that she killed Mrs. Crouther, but without giving any reason for committing the deed. It seems to be well known, however, that bad feelings existed between the two families, growing out of jealousy, and that Mrs. Crouther had several times threatened to kill Mrs. Crouther. The woman was forty-eight years of age, the wife of Thomas Crouther, a coal miner, and had been divorced from two husbands before marrying Crouther, and had lived a very unhappy life.

Mrs. Crouther was the widowed sister of B. J. Vance, the owner and operator of coal mines near O'Fallon and a politician of some local note. She was a highly estimable lady who lived a retired life a short distance from town and it does not appear that she was aware that Mrs. Crouther was her enemy.

John A. Lehman, the son-in-law of the suicide, says he never knew of any trouble between the woman and regards the affair as very mysterious.

**Frightful Slaughter and Bloodshed.**

CHARLESTON, Peru, Aug. 29.—In Lima Wednesday there was a storm of bullets for over six hours. Cacores entered the city with his rebels, yelling and firing. The night before all the government troops were withdrawn from the cartel and the palace. His men captured the cartel and the churches Mercedes and San Augustine, from which they kept up a fusillade. They also attacked the Guadalupe railroad station.

About 150 were killed in Mercedes and Bodegones and near the palace square, where the fire was the hottest. Finally the government troops made a sortie and drove out the mob.

Cacores was accompanied by about ninety horsemen. They appeared to have been traveling all night and were not in a condition to fight with the troops, who were well fed and fresh from their beds. Three hundred prisoners were taken. Cacores escaped.

A German, the proprietor of a cigar store, was killed while looking from his balcony. All the telegraph wires were cut for miles out of the city, and no trains are running. The cable staff is all right. Heavy guns were heard for hours but no news as to the locality of the firing was received up to 9:30 this morning.

All is quiet to-day in Lima. The dead men and horses are being removed and pools of blood cleaned up.

The fight in the San Augustine church was carried on with closed doors. Cacores is said to have 1,300 disciplined troops who were to have attacked Calao. These may return. Last night there were no guards in the streets. All were in their quarters and in the palace.

**The Chinese Frightened.**

CHANGHAI, Aug. 29.—The European residents of Shanghai remain there. Many Chinese, however, are alarmed and are leaving the city. The chief magistrates and consuls have issued placards urging the natives to remain, as the French have no present intention of attacking Shanghai or Woo Lung. The Chinese authorities here received an important telegram from Peking the purport of which is not precisely known but there are reports, however, that China is desirous of coming to an agreement with France. The viceroy of Canton has ordered all the Frenchmen to leave his province immediately.

PARIS, Aug. 29.—Owing to the better feeling prevailing in consequence of the rumors that China is disposed to enter into negotiations for a settlement of the Tonquin questions, rents quoted before the opening of the bourse this morning were too high.

The French are establishing a coal depot at Pondichien, on the southeast coast of India.

LONDON, Aug. 29.—The Times correspondent at Foo Chow telegraphs that the foreign settlement is quiet in the city and the natives seem friendly.

**The Mail Robbed.**

SPRINGFIELD, Mass., Aug. 29.—A mail pouch filled with letters from New York for towns in the vicinity of Palmer, which had been left on the track in the station at Palmer Wednesday night, was stolen. The contents were found yesterday on a hill opposite the village and were scattered about. Over 1,000 letters had been opened. No clue to the robber and the amount of the valuable contents is not known.

**A Violent Storm.**

EVANSVILLE, Ind., Aug. 29.—At 9 o'clock this morning the most destructive hurricane that ever visited here broke upon Evansville, doing a damage of not less than \$250,000. In the city and vicinity houses were blown down, roofs carried away and three or four steamboats badly injured. Thousands of shade trees were torn up by the roots and other injury was done. It is impossible, at this hour, to give the amount of damage done, and it will not probably fall short of the figures given.

## The heaviest individual losses are to John H. Becker, whose new foundry is almost wholly demolished, and to the steamers Joseph V. Throop and Oliver Horn, which are badly damaged. The former is almost wrecked. Several churches suffered severely, also one new school house.

A cyclone passed over Winnipeg last Wednesday night, blowing down many buildings and stripping roofs from massive blocks. The damage to crops was heavy, and the Canadian Pacific sheds were razed to the ground.

**THE MISSING MAIL.**

Found in a Corn-Field Near Lafayette Junction—The Letters Multiplied and Cash Counts—\$50,000 Worth of Drafts and Money Orders Left.

Yesterday and the day before in advance of any paper in the country, THE SENTINEL noted the theft of a mail pouch at Lafayette Junction. Last evening the bag was discovered in a corn-field. An examination revealed the fact that the strap which closes the leather sack had been cut and the contents, several thousand letters opened and rifled.

The clerks overhauled the mass and reported that no letters that had contained money were in the bag. A roll of drafts were examined, the aggregate amount of whose face values represented a little over \$25,000. The postal orders will net about the same amount. The sack was about three-fourths full. The letters were postmarked the 15th of August and the mail had been made up by Doc Mourner, of the railway mail service, on his run from Toledo to Lafayette. Most of the mail remaining in the sacks were postmarked from Toledo, Fort Wayne and other larger towns along the Wabash and were addressed to parties along the line of the Cincinnati, Indianapolis, St. Louis and Chicago railroad south of Lafayette.

The Wabash and Big Four Railway's jointly assume the responsibility for the mail transfer at the Junction and have one or two men detailed for this service, but they have made a nice mess of it. Three robberies in two years is a little monotonous.

The name "Light of Asia," the title given to Forepaugh's sacred elephant, is somewhat misleading. It has no reference to the color of the pachyderm's outside but to his weight. The lightest elephant ever imported. When viewed in this light the "Light of Asia" is fully entitled to its name.

It is said the Jenney Electric Light company will go extensively into the manufacture of a motor patented by young Jenney, who is quite a genius.

The following is told by several parties and we believe it to be the true version of the cause of the lad Maguire being so badly burned a few evenings since: Two boys were endeavoring to get what little gasoline there remained in some empty barrels which Muirhead, the coal dealer, had stored in his yard, to fill some torches, and in so doing they spilled some oil on young Maguire's clothing. He then struck a match on his pants to light his torch when his clothing was immediately set ablaze.

The proposition to change the system of time notation to the twenty-four hour system will be strongly urged at the international time congress, to be held at Washington October 1, and at the time convention of railway superintendents at Philadelphia October 9. The system, says H. C. Gratto, the leading jeweler here, is easily made familiar by the use of a supplementary dial, pasted just inside the ordinary dial of watches and clocks. It consists of a ring of thin paper containing the figures from thirteen to twenty-four inclusive, and a preparation on the back by which it is attached to the dial of the various styles of watches, being made in several sizes and various colors to suit the fancy of purchasers.

For some time past there has been talk at Wabash of the formation of a hydraulic company, for the purpose of purchasing the old canal between Wabash and Logansport, and renting power from the same. The plan is now crystallizing and will soon take definite shape. Messrs. Shirk & Dukes, owners of the canal, are the prime movers in the scheme. The new organization is to be known as the Wabash Hydraulic company, with a capital stock of \$12,000, divided into shares of \$100 each. An opportunity will soon be given Wabash capitalists to invest in the enterprise. The water is to be used in turning machinery, a purpose for which the feeder canal here is so admirably adapted.

25, after a general consultation, the following preamble and resolutions were unanimously adopted:

Whereas, The ladies of Fort Wayne presented each of the regiments here represented on our departure from Camp Allen in this city for the front with a regimental flag, through the Hon. F. P. Randall, the mayor of the city of Fort Wayne, and as by some neglect or oversight we have until now failed to return our thanks to them, or to report as to our conduct with the flags we take this opportunity to do so; therefore be it

Resolved, That we, representing the surviving members of the four regiments that were organized at Camp Allen, in the City of Fort Wayne, during the late war of the rebellion, have and shall always remember with feelings of the deepest gratitude the kind treatment we received while in that camp from the citizens of Fort Wayne, from its worthy mayor, the Hon. F. P. Randall, and especially from the ladies of Fort Wayne.

Resolved, That our thanks are hereby tendered to the ladies of Fort Wayne who presented each of our regiments, through the Hon. F. P. Randall, at that time mayor of the City of Fort Wayne, with a national flag, at the time we left the camp for the front and we take pride in assuring the ladies that we have returned those flags unscathed by any stain, that they could always be found in time of battle when the fighting was hardest, and that while scores of men gave up their lives in their defense, the hand of no enemy was ever laid upon them, and they were never trailed in defeat, or driven from the field in disgrace.

Resolved, That THE SENTINEL of Fort Wayne be furnished a copy of these proceedings and that they be respectfully requested to publish them.

J. B. DODGE, Pres.  
WILLIAM D. MATHER, Sec'y.

A lady, who suffered from weakness peculiar to her sex, in writing to a friend said: "I tried various kidney medicines, but only found myself growing worse. A friend told me to use Dr. Guy's Yellow Dock and Sarsaparilla. Its effect on me was soon indicated by a clear and beautiful complexion, a freedom from aches and pains, a complete removal of nervous depression, painless regularity in habits of digestion and otherwise. I cannot praise the remedy too highly as a true friend to suffering womanhood and as a strengthening medicine."
